PROFESSIONAL SUMMARY

Business Intelligence & Data Analyst who builds SQL, Python and Power BI solutions that replace manual reporting with automated, documented pipelines, used by teams up to Director level at EssilorLuxottica. Strong in data quality and KPI definition, with a business background in category management and consulting. Led teams of up to 28 people.

PROFESSIONAL EXPERIENCE

EssilorLuxottica | Milan, Italy

Business Intelligence & Data Analytics Assistant *Apr 2026 – Present*

- Delivered projects end to end, from development to stakeholder presentation, internal rollout and post-launch support, partnering with other teams where needed.
- Built a Python Master Data pipeline standardizing 50–60-column files on every upload, replacing recurring manual consolidation for the Visual Merchandising Retail team, saving 15 hours per week.
- Owned a SQL (CTE) channel-classification model covering 120k UPC-month-country records for Ray-Ban and Sunglass Hut North America, used by Product Strategy and E-commerce Assortment up to Director level.
- Automated weekly SQL/Python data preparation for third-party licensing (Kering, Marcolin, Thélios), covering 10k+ licenses per brand, reducing turnaround from 1 day to 1 hour (75%).
- Re-engineered Oakley North America's markdown workflow (SAP, OneRay, Finance; 90k+ rows) in Power Query, cutting a manual 5-file process from 8+ hours to 1 hour or less.
- Diagnosed root causes in SQL queries, data pipelines and KPI definitions behind incorrect responses from an internal AI retail chatbot, improving answer accuracy from ~20% to 95% on a 20-query test set.

Category Management Assistant *Jan 2026 – Apr 2026*

- Replaced a fully manual weekly process with a Power Query ETL consolidating 8+ regional roadmaps into a single database, cutting update and change-tracking time from 3–4 hours to 2 minutes per cycle for a 7-people team, including senior managers.
- Consolidated 80 Master Data files into a single 610k-row, 51-column dataframe, creating a centralized source of truth to streamline cross-file analysis, improve data consistency and accelerate reporting.
- Led pricing analysis across 20+ core lens categories in Brazil, developing a dual-axis framework to standardize pricing assessments across local markets and enable more consistent market comparisons and pricing decisions.

Amazon | Remote

People Analytics & Operational Insights Externship *Nov 2025 – Feb 2026*

- Built a Python pipeline analyzing 3,000+ workforce feedback records, identifying 4 key drivers of productivity and attrition (e.g., workload and career development opportunities) and presenting data-driven recommendations to management.

Protiviti | Milan, Italy

Junior FS Risk & Compliance Analyst *Mar 2024 – Jul 2024*

- Mapped 10+ banking workflows for corporate banking clients, identifying 15+ inefficiencies and control gaps and defining target-state processes that improved operational efficiency and strengthened internal controls.

LEADERSHIP

AIESEC | Pavia, Italy

B2C & Strategy Vice President *Feb 2025 – Feb 2026*

- Led customer acquisition strategy for a 40+ member organization and a team of 28, implementing KPI dashboards in Power BI to track lead generation and campaign performance, increasing qualified leads by 70%.

Junior Enterprise Consulting Pavia | Pavia, Italy

Consultant to Deputy Manager, Strategy & Business Development *Nov 2023 – Jun 2025*

- Led a team of 12 and 4 SME consulting projects on pricing and go-to-market; now alumni mentor.
